Featured in ATN News(Local TV Channel) live program on 2018

WORK EXPERIENCE

UI/UX Designer @ Bit Mascot

February 2018 - Current

Working with the core team to create design style guide and interaction flow for a trade finance software **(blockchain technology based)**.

Review clients' existing designs. Creating user flow and onboarding process. Redesigned different modules for the content management system, page builder, and online billing software. Train UX process to other designers.

Result: Successfully converted complex flow into an easy solution. Created guidelines for interaction flow. Helped to create a powerful style guide to maintain consistency over the team.

UI/UX Designer @ REVE Systems

December 2016 - January 2018

Solely responsible for redesign REVE Chat website. Built the onboarding process for the web app. Complete redesign of the Chat window. Creating wireframes for the team. Worked on Live Chat Applications, Click to call solution.

Results: Contributed to reducing the bounce rate from the website. Successfully designed both Andriod and iOS app. Introduced the onboarding process to the web application. Designed easy integration process to third party app.

UI/UX Designer @ Aaroza Infotech Ltd.

May 2015 - November 2015

Designing interfaces for marketing tools like Page builder, Heatmap Analytics, and more. Designing web templates. Giving support to Front-end developer on CSS fixes.

Web Designer @ Flyte Solutions

February 2012 - April 2015

Creating visual design for websites, landing pages, and newsletters. Converting PSD to HTML5/WordPress, CSS bug fixing. Designing marketing material.
